ASSIGNMENT AGREEMENT
(Serial No. 10/602,003)

PricewaterhouseCoopers Inc., solely in its capacity as the court appointed interim receiver of Cabletel Communications Corp. ("Cabletel") with no personal or corporate liability hereinafter called the "Assignor," and Stirling Connectors, Inc. an Indiana corporation, hereinafter called the ("Assignee,") make and enter this Assignment Agreement, hereinafter called the "Agreement," on this ____ day of June, 2004.

RECITALS:

Whereas, to the best of our knowledge, Cabletel, 230 Travail Road, Markham, Ontario, Canada L4R2Z3, as the legal successor to Stirling Connectors, Inc., previously at 211 Telson Road, Markham, Ontario, Canada L3R1E7, herein after referred to as "Cabletel", did, by assignment from the inventor, Albert Stirling, obtain certain new and useful improvements called COAXIAL CABLE CONNECTOR WITH INTEGRAL GRIP BUSHING FOR CABLES OF VARYING THICKNESS, hereinafter the "Inventions" as described in a pending United States application for Letters Patent Serial Number 10/602,003 (the "Application") and is now the assignee of the Inventions and the Application; and

Whereas, the Assignee is desirous of acquiring the entire right, title and interest in and to the Inventions and the Application, and in and to any Letters Patent or Patents, United States or foreign, to be obtained therefrom and thereon:

Whereas, Cabletel and the Assignee have entered into an asset purchase agreement dated June 2, 2004 (the "Purchase Agreement") for the purchase and sale of certain assets including all rights to patents and patents pending of Cabletel.

Whereas pursuant to the court order of the Honorable Justice Hoy dated June 18, 2004, the Purchase Agreement has been adopted by the Assignor solely for the purpose of completing the transactions contemplated by the Purchase Agreement.

Now, therefore, in consideration of the sum of One Dollar (\$1.00), and other good and sufficient consideration, the receipt of which is hereby acknowledged, the Assignor and Assignee agree:

1. The Assignor sells, assigns, transfers and sets over to the Assignee, its successors, legal representatives and assigns, the entire right, title and interest of Cabletel in and to the Inventions and the United States Patent Application having Serial No. 10/602,003 and in and to any and all divisions, continuations, and continuations-in-part of said applications, or reissues or extensions of said Application, and all right, title and interest of Cabletel under the international convention for the protection of industrial property, the same to be held and enjoyed by the Assignee, for its own use and the use of its successors, legal representatives and assigns, to the full end of the term or terms for which Letters Patent may be granted, or have been granted, as fully and entirely as

the same would have been held and enjoyed by the Assignor, had this sale and assignment not be made.

2. The Assignor covenants and agrees to and with the Assignee, its successors, legal representatives and assigns, that, at the time of execution and delivery of these presents, the Assignor has full right and lawful authority to sell and convey the entire right, title and interest in and to the Inventions and the Letters Patent in the manner herein set forth, and the Assignor has not done any act to assign absolutely or convey absolutely the same; and

3. The Assignor covenants and agrees to and with the Assignee, its successors, legal representatives and assigns, that the Assignor will, on a best efforts basis, whenever counsel of the Assignee, or the counsel of it's successors, legal representatives and assigns, shall advise, acting reasonably and upon providing the Assignor with reasonable notice, that any proceeding in connection with said inventions, or said application for Letters Patent, or any proceeding in connection with the Letters Patent for said inventions in any country, including interference proceedings, is lawful and desirable, or that any division, continuation, and continuations-in-part of any application for Letters Patent, or any reissue or extension of any Letters Patent, to be obtained thereon, is lawful and desirable, sign all papers and documents, take all lawful oaths, and do all acts necessary or required to be done for the procurement, maintenance, enforcement and defense of said Letters Patent, without charge to the Assignor, or its successors, legal representatives and assigns, but at the cost and expense of the Assignee, its successors, legal representatives and assigns.

4. The Assignor requests the Commission of Patents to be assigned for the sole use of the Assignee, its successors, legal representatives and assigns.

Signed at Toronto, Ontario, Canada on the date first set forth above.
